ABOUT THE PROJECT

HP4ALL will enhance, develop and promote the skills required for high quality, optimised Heat Pump installations within residential/non-residential buildings bringing Europe to the forefront of the climatization sector.
This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement No 891775

OBJECTIVES

- Design Heat Pumps competency & excellence skills framework
- Enable end users/clients to demand high quality solutions
- Increase the number of skilled workers
- Replicate the project at national and EU-level
Primary energy savings
2 GWh/year

Renewables production
1.95 GWh/year

Reduction of
628 tCO2/year

400
People trained
